

Modul-System inrichting-ideeën voor

Fiat

Doblò Cargo, Talento & Ducato

Modul-System

Als klant van Modul-System kunt u er gerust op zijn dat u de juiste keuze hebt gemaakt. Wij leveren al ruim 40 jaar inrichtingen en u kunt met een gerust hart op onze ervaring bouwen. Hetzelfde geldt voor ons veiligheidsprogramma, waarin wij voor onze crashtest gebruik maken van de beste veiligheidscentra ter wereld, zoals onder meer het Volvo Cars Safety Centre. Ervaring alleen is echter niet genoeg. Het is minstens zo belangrijk om innovatief te denken en de klantbehoeften tot in detail te begrijpen. Bij elk ontwikkelingsproject worden in samenwerking met klanten en gebruikers testen gedaan, die als voorwaarde dienen bij de ontwikkeling van de nieuwe producten en innovaties.

Kwaliteitsgarantie tot op de kleinste schroef

Onze producten zijn goedgekeurd volgens de Europese TÜV-standaard. Ons ISO 9001-certificaat garandeert de kwaliteit van het complete proces: van ontwikkeling en productie tot levering, verkoop en klantenservice. Hierdoor kunnen wij op de door ons geproduceerde producten maar liefst 36 maanden garantie geven. Daarnaast hebben wij de kortste levertijden binnen onze branche.

Modul-System Service Centers

Wij hebben al jarenlang in heel Europa een hoogstaand en uitgebreid Service Centers-netwerk. Een Modul-System Service Center is een erkende dealer die over de competentie beschikt om u goed te adviseren, een expert is op het gebied van onze producten en installatie ervan in uw voertuig. Bij onze Service Centers kunt u uw voertuig ook laten uitrusten met vloer- en wandbekleding, met elektronica en kunt u hulp krijgen met de verlichting, het vastzetten van lading en dakdragers.
